RAPID LATERAL FLOW TESTS FOR HOUSEHOLDS AND BUBBLES OF SCHOOL PUPILS AND STAFF

Members of households, childcare or support bubbles of school staff and pupils

From 1 March 2021, if you're a member of a household, childcare bubble or support bubble of staff or a pupil you can get a twice-weekly test:

- through your employer if they offer testing to employees
- at a local test site
- by collecting a home test kit from a test site
- by ordering a home test kit online

Get a test through your employer

Your workplace may offer rapid lateral flow testing to you. Contact your employer to find out more.

Take a test at a rapid lateral flow test site

You can take a rapid lateral flow test at a local site. Testing at these sites is assisted, which means you will swab yourself under the supervision of a trained operator.

You may need to book an appointment.

[Find your nearest rapid lateral flow test site.](#)

Collect test kits

You can collect 2 packs of home test kits at a local collection point. Each pack contains 7 tests.

Anyone 18 or over can collect. You can check online if the location is busy before you go.

[Find your nearest home test kit collection point.](#)

Order home test kits online

If you cannot get tested at your workplace or are unable to go to a test site or collect test kits, you can order a home test kit online.

Do not order online if you can get a test through other methods. This frees up home delivery for those who need it most.

What twice-weekly testing involves

You will be asked to:

- take a test twice a week (every 3 or 4 days apart)
- report every result to NHS Test and Trace on the same day you take the test
[Report your test result online](#) or by calling 119.

If anyone tests positive or gets coronavirus symptoms, they should tell the school and:

- self-isolate immediately
- get a PCR test to confirm the result
- follow the [stay at home guidance for households with possible coronavirus infection](#)

A negative result means the test did not find signs of coronavirus. But this does not guarantee you do not have coronavirus, so you should keep following all [coronavirus advice](#) including:

- regular handwashing
- social distancing
- wearing a face covering where recommended
